SCREENING ADDITIONS

FLAT

Full Blockout Aluminium Composite Backing

An Aluminium Composite backing, inserted between vertical slats and the backing pieces for 100% total blockout.
Please note, this modification changes the width of the screen to 606mm

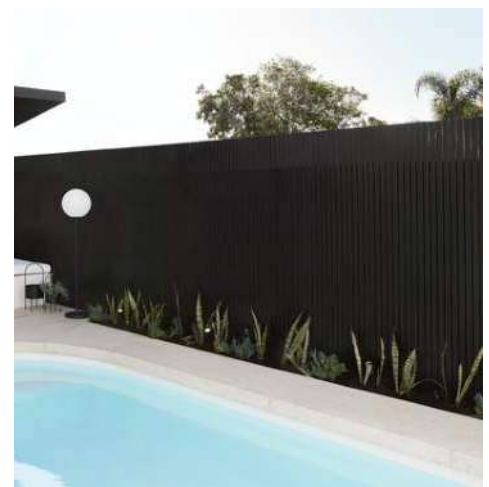

Custom Heights available between 3000mm - 3600mm in some profiles

Recycled Composite up to 3000mm tall.

Special order available for lengths over 3000mm

Custom heights available with hardwood up to 3000mm - 3600mm. Maximum height varies between species

Custom Spacing 20mm 40mm

Screens manufactured in the Flat style are made with a standard 8mm gap

We can modify the gap to either 20mm or 40mm if specified.

Stainless steel screws

Screens can be made with stainless steel screws to avoid rusting (ideal for coastal areas)

Steel backing pieces

We can add additional galvanised or powder coated steel backing pieces, if you're wanting to achieve a curve or minimal depth.

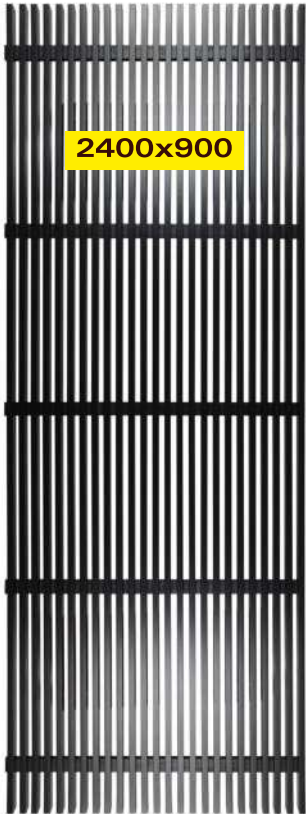

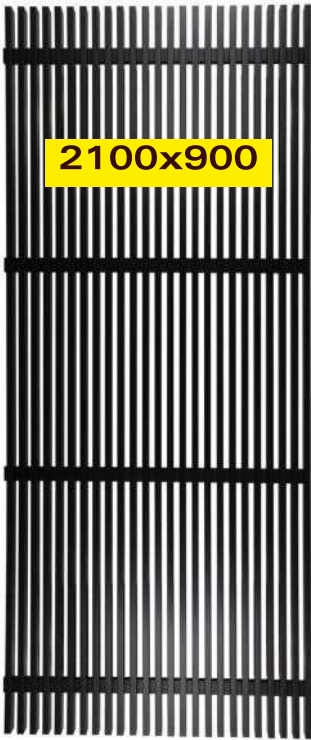

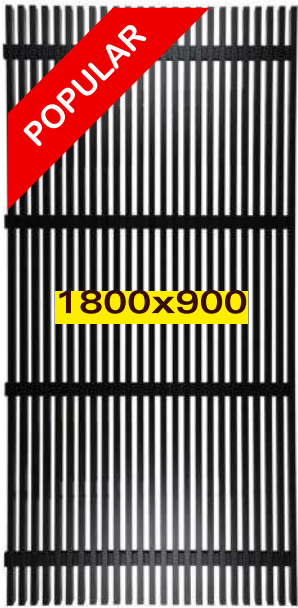

BATTEN SCREENING

These screens will showcase Architectural flare and modernisation. Available in various hardwood species or a zero maintenance Recycled Composite
